Affiliate Video & Seller Video Production Setup

This revised quotation focuses on your priorities. We will install Claude Code on your own computer and accounts, set up the Affiliate Video and Seller Video Production systems, and train your team to run them. The remaining needs (Store Analysis, Ads Monitoring, Listing, Affiliate Live, Customer Service, Meta Ads) are covered as consultation: we brief your team on the method and steps, and your team carries them out. We do not set these up.

The affiliate screening and outreach workflow and the video editing workflow are already running in my own TikTok Shop and Shopee stores.

Scope: 1 brand, 1 TikTok Shop and 1 Shopee store (Malaysia). This project covers system setup, training and consultation. It does not include store operation.
